## **Scientific Games to Continue as Instant Game Provider to New Hampshire Lottery**

*Instant Product Category's 10-Year Growth in New Hampshire at 29 Percent Highlighted by Record Sales in 2015*

**LAS VEGAS AND ATLANTA – August 6, 2015** – [Scientific Games Corporation](#) (“Scientific Games” or the “Company”) today announced it has executed all available extensions to its instant products contract with the [New Hampshire Lottery](#) (“the Lottery”) under which Scientific Games will supply the Lottery with instant games and related services for two additional years through June 2017. Scientific Games has served as the instant game provider to the New Hampshire Lottery throughout the years and in the last 10 years has helped grow the Lottery’s instant product category by more than 29 percent, highlighted by a record year of sales in 2015.

Charlie McIntyre, Executive Director for the New Hampshire Lottery said, “This has been an amazing year of record sales with instant games making up the majority of our revenue. Our success in accomplishing the Lottery’s mission to maximize revenues for aid to public education in New Hampshire and to provide secure and entertaining games to our players could not have been possible without our relationship with Scientific Games.”

The business relationship between the New Hampshire Lottery, the first U.S. state lottery, and Scientific Games dates back to 1975 with the debut of the Lottery’s *Lucky X* instant game created by the company.

John Schulz, Senior Vice President for Scientific Games said, “We are so pleased by the long-term success of the instant product in New Hampshire Lottery. We applaud the Lottery for following instant game best practices for instant games and for its continued innovative approach to trying new games for players in the Granite state.”

In 2014, the Lottery launched several instant game innovations including the *I HEART BACON* scented game and a special **Red Sox™** game and second chance promotion along with an appearance of player David Ortiz (the “Big Papi”) at the New Hampshire State House with Governor Maggie Hassan. The Lottery also celebrated its 50<sup>th</sup> anniversary in 2014 with a special game called *Granite Millions*, its first ever \$25 instant game. Perennially ranked in the Top Lotteries in the world for instant game per capita sales, the New Hampshire Lottery is actually the oldest modern U.S. state lottery.

### **Forward-Looking Statements**

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as "may," "will," "estimate," "intend," "plan," "continue," "believe," "expect," "anticipate," "target," "should," "could," "potential," "opportunity," "goal," or similar terminology. These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: competition; U.S. and international economic and industry conditions, including declines in or slow growth of lottery retail sales or gross gaming revenues, reductions in or constraints on capital spending by gaming or lottery operators and bankruptcies of, or credit risk relating to, customers; limited growth from new gaming jurisdictions, slow addition of casinos in existing jurisdictions and declines in the replacement cycle of existing gaming machines; ownership changes and consolidation in the casino industry; opposition to legalized gaming or the expansion thereof; ability to adapt to, and offer products that keep pace with, evolving technology; ability to develop successful gaming concepts and content; laws and government regulations, including those relating to gaming licenses and environmental laws; inability to identify and capitalize on trends and changes in the gaming and lottery industries, including the expansion of interactive gaming; dependence upon key providers in our social gaming business; retention and renewal of existing contracts or entry into new or revised contracts; level of our indebtedness, higher interest rates, availability and adequacy of cash flows and liquidity to satisfy obligations or future needs, and restrictions and covenants in our debt agreements; protection of our intellectual property, ability to license third party intellectual property, and the intellectual property rights of others; security and integrity of our software and systems and reliance on or failures in our information technology systems; natural events that disrupt our operations or those of our customers, suppliers or regulators; inability to benefit from, and risks associated with, strategic equity investments and relationships, including (i) the inability of our joint venture to meet the net income targets or otherwise to realize the anticipated benefits under its private management agreement with the Illinois lottery (or in connection with any termination thereof), (ii) the inability of our joint venture to meet the net income targets or other requirements under its agreement to provide marketing and sales services to the New Jersey lottery or otherwise to realize the anticipated benefits under such agreement and (iii) failure to realize the anticipated benefits related to the award to our consortium of an instant lottery game concession in Greece; failure to achieve the intended benefits of the Bally acquisition or the WMS acquisition, including due to the inability to successfully integrate such acquisitions or realize synergies in the anticipated amounts or within the contemplated timeframes or cost expectations, or at all; litigation relating to the Bally acquisition; disruption of our current plans and operations in connection with the Bally acquisition and the WMS acquisition (including in connection with the integration of Bally and WMS), including departure of key personnel or inability to recruit additional qualified personnel or maintain relationships with customers, suppliers or other third parties; costs, charges and expenses relating to the Bally acquisition and the WMS acquisition; inability to complete or successfully integrate future acquisitions; incurrence of restructuring costs, revenue recognition standards and impairment or asset write-down charges; fluctuations in our results due to seasonality and other factors; dependence on suppliers and manufacturers; risks relating to foreign operations, including fluctuations in foreign currency exchange rates and restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability, including the potential impact to our instant lottery game concession or VLT lease arrangements resulting from the recent economic and political conditions in Greece; dependence on our key employees; litigation and other liabilities relating to our business, including risks relating to product defects or other claims relating to products; influence of certain stockholders; and stock price volatility.

Additional information regarding risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with

the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on March 17, 2015 (including under the headings "Forward Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
