

Scientific Games Launches Online Sports Betting Platform For Szerencsejáték Zrt., Hungary's State-Owned Lottery And Largest Gaming Provider

LAS VEGAS and ATLANTA – April 17, 2018 – [Scientific Games Corporation](#) (NASDAQ: SGMS) (“Scientific Games” or the “Company”) today announced it has successfully launched an online sports betting channel for Szerencsejáték Zrt., the largest gaming service provider in Hungary. Fully owned by the Hungarian State, Szerencsejáték Zrt. has the exclusive right to sell sport games as well as instant draw-based lottery games.

With the implementation of the new internet sports betting platform, Scientific Games is now Szerencsejáték Zrt. sole provider of gaming systems technology and is responsible for the development, installation, and maintenance of the systems. The omni-channel platform allows Szerencsejáték Zrt. to deliver sports betting via mobile and internet, as well as through their distribution channel of nearly 5,000 retail lottery terminals.

“Since migrating our online sports betting platform to a Scientific Games solution, we now have one company providing advanced gaming technology that supports our entire gaming portfolio,” said David Csillag, CIO for Szerencsejáték Zrt. “The new technology accelerates the implementation of our IT strategy, drives efficient operations and lowers maintenance costs, and creates a seamless gaming experience for our players.”

Scientific Games, initially through a legacy company, has provided sports betting, gaming systems technology, lottery retailer terminals and instant game solutions to Szerencsejáték Zrt. since 1997. In 2015, Scientific Games launched its AEGIS® open software system in Hungary.

“We are now supporting Szerencsejáték Zrt. in a multi-channel gaming environment,” said Pat McHugh, Senior Vice President, Global Lottery Systems for Scientific Games. “Our ability to seamlessly integrate end-to-end solutions for all products in their portfolio is core to our strategy of providing significant value to lottery customers. Since migrating to Scientific Games’ latest platforms, Szerencsejáték Zrt. has successfully executed on their business plan, and has become one of the fastest growing lotteries in Europe, achieving double digit growth year-over-year. Our advanced technology helps Szerencsejáték Zrt. implement its new strategy and become a very innovative gaming company.”

The leading lottery systems technology provider in Europe and the fast-growing lottery systems provider in North America, Scientific Games supplies games, technology and services to more than 150 lotteries globally.

Forward-Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "will," "may," and "should." These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks, uncertainties and other factors, including those factors described in our filings with the Securities and Exchange Commission (the "SEC"), including Scientific Games' current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on March 1, 2018 (including under the headings "Forward-Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
