

## **Patrick Homm to Lead Scientific Games International Lottery Systems Technology**

**ATLANTA – October 15, 2024** – [Scientific Games](#) announces the appointment of Patrick Homm as Vice President, Systems Engineering for the company's international lottery systems technology. Patrick Homm brings over a decade of experience in innovative gaming systems, software engineering, technology leadership and large-scale systems architecture to his new role. As the industry's fastest-growing lottery systems provider, Scientific Games continues investment in omnichannel technology ecosystems that deliver optimal consumer experiences across lottery retail and digital channels.

Since joining Scientific Games in 2022, Homm has managed multiple high-impact retail and iLottery projects as the company's business scaled as a trusted technology partner to 80 lotteries worldwide on one or more systems solutions.

With his leadership experience in agile transformation, microservice architecture, and cloud policy development, he has driven innovation and operational excellence throughout his career. Prior to joining the Scientific Games technology team in Vienna, Homm held various roles at [Admiral Group](#) for eight years, including Head of Portal Engineering.

Homm's hands-on approach, innovative mindset and ability to foster collaboration across teams align perfectly with Scientific Games' mission to deliver secure, world-class retail, iLottery and sports betting systems for the government-regulated lottery industry.

**Michael Conforti, President, International at Scientific Games**, said, "Patrick's appointment is a pivotal step in further strengthening our International Systems team. His deep expertise, visionary leadership and commitment to fostering innovation will help us achieve our strategic goals as we continue to revolutionize omnichannel lottery systems technology for the next generation of lottery retailers and players."

Scientific Games is a trusted partner to 150 lotteries in 50 countries around the globe, providing games, technologies, analytics and services that responsibly drive maximum returns to their beneficiary programs.
