

WINNING IN NEW ENGLAND! SCIENTIFIC GAMES CELEBRATES NEW HAMPSHIRE LOTTERY'S NEW INSTANT GAME CONTRACT

The Oldest and One of the Most Successful U.S. Lotteries Has Partnered with Company Since Launching Its First Instant Game in 1975

LAS VEGAS and ATLANTA – June 26, 2017 – [Scientific Games Corporation](#) (NASDAQ: SGMS) (“Scientific Games” or the “Company”) today announced that the Company won a new, four-year contract to provide instant games and additional services to the New Hampshire Lottery (the “Lottery”), the first U.S. state lottery and one of the nation’s most successful lotteries. A catalyst for the U.S. lottery industry that has grown to 44 state lotteries, the New Hampshire Lottery is currently ranked among the Top 10 lotteries in the world for instant game per capita sales (*La Fleur’s Almanac*).

The New Hampshire Lottery has partnered with Scientific Games since its first instant game launch in 1975, and for the last 10 years the Company has served as the Lottery’s sole instant game provider. The new four-year contract begins July 1, 2017 and may be extended for two additional years. Scientific Games also provides licensed properties to the Lottery, including the fan favorite *THE WIZARD OF OZ™*, and interactive games such as *SLINGO® Lottery Challenge*.

Charlie McIntyre, Executive Director of the New Hampshire Lottery, said, “Our collaboration on instant games over the last four decades is truly a success story. Scientific Games has deep expertise with prize structures, and highly experienced game designers who create games our players love to play. Most important, their instant games have generated millions in revenue to support education in New Hampshire.”

In New Hampshire, total instant game sales have increased 6.4 percent in the last five years (FY 2011-2016), with instant game per capita sales increasing 6.2 percent compared to 5.7 percent for the industry. Creative options like Scientific Games *Scratch My Back®*, offering play on both sides of the ticket, have recently been a big hit with players in the state.

John Schulz, Senior Vice President, Instant, Products, for Scientific Games, said, “We appreciate the New Hampshire Lottery’s confidence in Scientific Games’ ability to offer a wide array of instant games. Ultimately, our goal is to provide the Lottery with the most innovative game portfolio to entertain New Hampshire players and help drive proceeds for education.”

Scientific Games currently supplies more than 70 percent of lottery instant games in the U.S. and provides games, technology and services to more than 150 lotteries worldwide, including nearly every North American lottery.

Forward-Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as "may," "will," "estimate," "intend," "plan," "continue," "believe," "expect," "anticipate," "target," "should," "could," "potential," "opportunity," "goal," or similar terminology. These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: competition; U.S. and international economic and industry conditions, including slow growth of new gaming jurisdictions, slow addition of casinos in existing jurisdictions, and declines in the replacement cycle of gaming machines; ownership changes and consolidation in the gaming industry; opposition to legalized gaming or the expansion thereof; inability to adapt to, and offer products that keep pace with, evolving technology, including any failure of our investment of significant resources in our R&D efforts; inability to develop successful products and services and capitalize on trends and changes in our industries, including the expansion of internet and other forms of interactive gaming; laws and government regulations, including those relating to gaming licenses and environmental laws; dependence upon key providers in our social gaming business; inability to retain or renew, or unfavorable revisions of, existing contracts, and the inability to enter into new contracts; level of our indebtedness, higher interest rates, availability or adequacy of cash flows and liquidity to satisfy indebtedness, other obligations or future cash needs; inability to reduce or refinance our indebtedness; restrictions and covenants in debt agreements, including those that could result in acceleration of the maturity of our indebtedness; protection of our intellectual property, inability to license third party intellectual property, and the intellectual property rights of others; security and integrity of our products and systems and reliance on or failures in information technology and other systems; challenges or disruptions relating to the implementation of a new global enterprise resource planning system; failure to maintain internal control over financial reporting; natural events that disrupt our operations or those of our customers, suppliers or regulators; inability to benefit from, and risks associated with, strategic equity investments and relationships; failure to achieve the intended benefits of our acquisitions; incurrence of restructuring costs; implementation of complex revenue recognition standards or other new accounting standards; changes in estimates or judgments related to our impairment analysis of goodwill or other intangible assets; fluctuations in our results due to seasonality and other factors; dependence on suppliers and manufacturers; risks relating to foreign operations, including fluctuations in foreign currency exchange rates, restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability, including the potential impact to our business resulting from the affirmative vote in the U.K. to withdraw from the EU, and the potential impact to our instant lottery game concession or VLT lease arrangements resulting from the recent economic and political conditions in Greece; changes in tax laws or tax

rulings, or the examination of our tax positions; dependence on key employees; litigation and other liabilities relating to our business, including litigation and liabilities relating to our contracts and licenses, our products and systems, our employees (including labor disputes), intellectual property, environmental laws and our strategic relationships; influence of certain stockholders; and stock price volatility.

Additional information regarding risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on March 3, 2017 (including under the headings "Forward Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
