

Scientific Games' New Era Optical Technology Modernizes Lottery Retail Experience In Germany

Company's New *Contour.v* Terminals Debuts in Market with LOTTO Bremen Retailers and Players

ATLANTA – December 5, 2023 – Scientific Games will bring the company's new, camera-based lottery retailer technology to [LOTTO Bremen](#) in Bremen, Germany. The company's high-performance *Contour.v* moves the lottery retail experience beyond reliability to maximum transactional transparency for both retailers and players. Scientific Games will install *Contour.v* terminals at LOTTO Bremen retailers, in addition to providing the cloud-based *SYMPHONY* terminal management system.

Michael Barth, Managing Director for Bremer Toto-Lotto GmbH, said, "Moving to more advanced lottery terminals across the LOTTO Bremen network brings us another step closer to modernizing the lottery experience with Scientific Games, our longtime technology provider. We are confident that this is a very positive move that will be well-received by our retailers and players."

LOTTO Bremen is the first in-market implementation of *Contour.v*. Offering both clerk and player HD screens, contactless player interactions and mobile features, the *Contour.v* terminals represent Scientific Games' new-era optical technology. *Contour.v* was innovated by the company as part of its newest line of high-performance *Contour* terminals to meet evolving market demand in integrated lottery retail and digital environments.

The camera-based terminals feature an easily viewable and accessible ticket scan area and HD screens configurable for both clerk and player view, the *Contour* line of terminals was designed with durability and an unparalleled user experience in mind. A sleek, uni-body eliminates unnecessary parts, making the terminals extremely reliable. Unique, advanced optics technology enhances the speed of service. The *Contour* terminals also offer easy processing and a variety of options for ongoing software upgrades.

"As our first *Contour.v* terminal and *SYMPHONY* terminal management system customer in Germany, we applaud LOTTO Bremen on its innovative vision and leadership in Germany toward modernizing the lottery retail experience," said Matthias Müller, **VP of Strategic Sales & Marketing for Scientific Games**.

Scientific Games has supplied LOTTO Bremen with lottery technology for more than 25 years and currently provides the Lottery with its world-leading instant games, a digital lottery subscription program and a central gaming system.

The company is a supplier to all 16 lotteries in Germany, and the largest lottery systems technology provider in Europe. Scientific Games currently supplies games, technologies, analytics and services to 130 lotteries in 50 countries.
